This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

The Act establishing the State Library (chap. 276 of the Laws of 1818) had its origin in a bill which was introduced in the Assembly on the 18th day of March of that year, by Thomas J. Oakley, a distinguished member of the bar and afterward Chief Justice of the Superior Court of the City of New York. The first Board of Trustees was composed of Governor DeWitt Clinton, Lieutenant-Governor John Tayler, Chancellor James Kent and Chief Justice Smith Thompson, who reported to the Legislature of 1819, that they had purchased for the Library, 600 volumes, of which, 250 volumes were law books. The following table will show the additions to the Law Library during periods of ten years each, from the time of the first purchase in 1818 :

1818 to 1828	1,217	volumes.
1828 to 1838	1,883	"
1838 to 1848	5,287	"
1848 to 1858	6,468	"
1858 to 1868	5,041	"
1868 to 1878	8,812	"

From January 1, 1878, to December 31, 1882, there were added 5,471 volumes, making a total of 34,179 volumes, of which, 10,000 volumes are estimated to comprise the collection of statute law and state papers, leaving 24,000 as the number of volumes of law books embraced in this catalogue.

The present volume has been prepared and published in pursuance of chapter 306 of the Laws of 1881, for the purpose of increasing the utility of the Library. In its preparation, the Librarian has had in mind the practical convenience of those who have occasion to consult the Library, rather than any effort to construct a bibliographical model. Each volume is entered under some one of the subjects, and some volumes are entered several times under different subjects. Cross-references have been freely made from general subjects to their various subordinate subjects and also to co-ordinate and illustrative subjects. The plan of short titles has been adopted. Under this plan, it will be readily seen, that each entry must be read with reference to the subject under which it occurs, in order that the title may be fully understood.

References to leading articles contained in 725 volumes of American, English, Irish, Scotch and Canadian law periodicals have been noted under their

respective subjects. A large number of the more important published trials have been examined, and are entered under the subjects which they illustrate.

A list of the abbreviations used in the Subject-Index in referring to periodicals, etc., follows the preface. Other abbreviations, more frequently used, like "Lond." for London, "Eng." for England and English, "Comm." for Commentaries, "fr." for from, "tr." for trial, "rel." for relation and relative, it is believed, will be understood from the connection in which they occur.

If this volume shall serve the purpose for which it has been prepared, its compiler will find adequate consolation for the errors that may appear as its pages are examined; and upon a review of the labor involved in its preparation, he is ready to adopt the words of Anthony à Wood, as quoted by Mr. Wm. H. Spilsbury in his preface to the Catalogue of the Library of Lincoln's Inn: — "A painfull work it is, I'll assure you, and more than difficult; wherein what toyle hath been taken, as no man thinketh, so no man believeth, but he that hath made the triall."
